Bhubaneswar: A Keonjhar-based charitable trust will contribute Rs 25 crore to IIT Bhubaneswar to promote the use of artificial intelligence (AI), high-performance computing (HPC) and other technologies that benefit people.

IIT Bhubaneswar has signed an MoU with Rabisons Foundation, the charitable trust, to advance these activities through its AI and HPC Research Centre (AHRC).

The contribution will also support the setting up of a permanent scholarship fund, 'Rabisons Foundation-AHRC Scholarship,' to be granted to 8-10 underprivileged but meritorious regular students in various streams, official sources said. tnn

(AHRC) of IIT Bhubaneswar. Rabisons Foundation will provide a total funding contribution of Rs 25 crore in 2024-25 to AHRC.

Patnaik expressed hope that the funds will help bring the benefits of technology to society and promote education and research. Prof Karmalkar said the scope of work supported by the Rabisons Foundation at AHRC would encompass advancement in research and development, innovation, entrepreneurship, services and products involving the use of AI, HPC and other technologies.

The target application areas will include healthcare, agriculture, assistive technologies, smart cities, green energy, art, culture, heritage, infrastructure, business, finance and any other areas of social or economic importance.

Rabisons Foundation-AHRC Scholarship, a permanent fund to be set up under this initiative, will be used for granting scholarships to eight to 10 meritorious students of IIT Bhubaneswar in various streams.

IIT Bhubaneswar and Rabisons Foundation sign MoU to boost AI and high-performance computing research

PBD BUREAU

BHUBANESWAR, JUN 17

THE Indian Institute of Technology (IIT) Bhubaneswar and the Keonjhar-based charitable trust Rabisons Foundation have entered into an agreement aimed at promoting Artificial Intelligence (AI), High-Performance Computing (HPC), and other technologies across various societal benefits. The collaboration will primarily operate through the AI and HPC Research Center (AHRC) at IIT Bhubaneswar.

In attendance at the signing were Saroj Kumar Patnaik, Trustee of Rabisons Foundation and Donor, Satyabrata Panda, Board of Governors (BoG) member, and Professor Shreepad Karmalkar, Director of IIT Bhubaneswar, who facilitated the donor's engagement with AHRC. Professor Ashwini Nanda, Director of AHRC, also played a pivotal role.

Under the Memorandum of Understanding, Rabisons Foundation will provide a significant funding contribution of Rs. 25 crore for the fiscal year 2024-25 to AHRC. Patnaik expressed optimism that this funding will help translate technological research into societal benefits and foster education and research for marginalized communities. Panda emphasized that this partnership marks a beginning towards positioning IIT Bhubaneswar among the world's leading institutions. Professor Karmalkar highlighted the institute's commitment to knowledge

creation, dissemination, and application, as well as economic and educational development.

The collaboration will focus on advancing research and development, innovation, entrepreneurship, and the application of AI, HPC, and related technologies. Target areas include health-care, agriculture, smart cities, green energy, and others of societal and economic importance.

Additionally, a 'Rabisons Foundation-AHRC Scholarship' fund will be established to provide financial support to 8 to 10 economically disadvantaged yet meritorious students at IIT Bhubaneswar across various disciplines.

AHRC, established in May 2023, is an interdisciplinary research center where experts from engineering, computer science, medicine, agriculture, basic sciences, finance, economics, and other fields collaborate to develop comprehensive solutions to industry and societal challenges.
