Classes begin at IIT Bhubaneswar

Hemanta Pradhan / Aug 4, 2024, 05:03 IST

Bhubaneswar: After concluding the admission process for BTech, MTech, and PhD students, IIT Bhubaneswar has commenced classes for these courses for the new academic session. This year, more than 900 students have enrolled in these courses, including three foreign students participating in the 'Study in India' programme.

Separate orientation programmes were conducted for students and parents for each course.

"The classes are engaging, and the campus is beautiful. The counseling process was smooth and efficient," said M Ravi Chandra Sai, a BTech computer science student. Another newcomer, Julis Joy, a BTech student, said, "I like the courses and facilities here. My student guide made things easier by being very approachable and patiently attending to all of my concerns."

A total of 451 students have joined the BTech programme, 240 MTech, 107 MSc, six MS for research, and 115 PhD courses.

Indian Institute of Technology (IIT) Bhubaneswar has welcomed the new batch of students with a great enthusiasm. Separate orientation programs for the students and parents for individual courses and an inspiring talk were organized by the Institute, followed by the admission process for the academic year 2024-25.

During the orientation programs, Prof. Shreepad Karmalkar, Director, introduced the new members of the campus to the unique features of IIT Bhubaneswar. Spanning over 936 acres of land, the scenic campus with 50,000 deciduous trees is the 3rd largest among the 23 IITs. Nestled at the base of the historic Barunei hillock, the campus site was the site of the 1817 Paikha Rebellion against British. The majestic dome with mismatched halves atop the administrative building signifies the institute's policy of acceptance of differences among people. IIT Bhubaneswar has moved beyond knowledge generation, dissemination and application to wealth generation by entrepreneurship and producing quality teachers. Its teachers are trained in active cooperative learning techniques, informed Prof. Karmalkar. Deans and Senior Faculty Members briefed the members about various academic and non-academic facilities of the Institute. The queries and concerns of the students and parents were addressed during these sessions.

भारतीय प्रौद्योगिकी संस्थान भुवनेश्वर Indian Institute of Technology Bhubaneswar

The orientation included a talk by a motivational speaker Cdr. V.K. Jaitly (Retd.) on 'Shaping Your Future in the next 4 years at IIT Bhubaneswar' on 2nd August 2024. The speaker motivated the students to become a game changer by doing things differently with 'dedication, determination and discipline'. Dr. Vijayakrishna Kari, Professor-in-Charge (Seminar) coordinated the program.

The admission to different courses at IIT Bhubaneswar commenced from 9th July 2024, with the enrolment of the Ph.D. students. As many as 451 students have joined in B.Tech, 240 in MTech., 107 in MSc., 6 in in MS by Research and 115 in the Ph.D. course. Out of these, 3 foreign students have enrolled as part of the 'Study in India' program. The Institute has started a new stream, namely Engineering Physics, and introduced MTech. degree programs in Semiconductor Technology and Chip Design, Artificial Intelligence, Robotics and Artificial Intelligence, and Blended-mode MTech. degree in 'Advanced Maintenance Technology. Soon, 50 students are going to enroll in the 2nd batch of the 4-year Integrated Teacher Education Program (ITEP).

In the orientation programme, Shreepad Karmalkar, Director, introduced the new members of the campus to the unique features of IIT Bhubaneswar. Spanning over 936 acres of land, the scenic campus is the third largest among the 23 IITs.

Nestled at the base of the historic Barunei hillock, the campus site was the site of the 1817 Paikba Rebellion against British. The majestic dome with mismatched halves atop the administrative building signifies the institute's policy of acceptance of differences among people.

The institute also informed that IIT Bhubaneswar has moved beyond knowledge generation, dissemination and application to wealth generation through entrepreneurship and producing quality teachers. Deans and senior faculty members also briefed the members about various academic and non-academic facilities of the institute. The queries and concerns of the students and parents were addressed during these sessions, the press release said.

The orientation programme also included a talk by a motivational speaker Commander V K Jaitly (Retd.) on 'Shaping Your Future in the next 4 years at IIT Bhubaneswar' held on August 2, 2024. The speaker motivated the students to become a game changer by doing things differently with 'dedication, determination and discipline'. Vijayakrishna Kari, Professor-in-Charge (Seminar) coordinated this programme, the release added.

Since its inception, IIT Bhubaneswar has achieved many feats through its innovative approach to learning through introduction of contemporary courses. The institute has recently started a new stream, namely Engineering Physics. It has also introduced MTech. degree programmes in Semiconductor Technology and Chip Design, Artificial Intelligence, Robotics and Artificial Intelligence, and Blended-mode MTech. degree in 'Advanced Maintenance Technology'. The institute also informed that 50 students are going to enrol in the second batch of its 4-year Integrated Teacher Education Program (ITEP) soon.

Motivational speaker Cdr. V.K. Jaitly (Retd.) at IIT Bhubaneswar.

भारतीय प्रौद्योगिकी संस्थान भुवनेश्वर Indian Institute of Technology Bhubaneswar

Indian Institute of Technology (IIT) Bhubaneswar has welcomed the new batch of students with great enthusiasm. Separate orientation programs for the students and parents for individual courses and an inspiring talk were organized by the Institute, followed by the admission process for the academic year 2024-25.

During the orientation programs, Prof. Shreepad Karmalkar, Director, introduced the new members of the campus to the unique features of IIT Bhubaneswar. Spanning over 936 acres of land, the scenic campus with 50,000 deciduous trees is the 3rd largest among the 23 IITs. Nestled at the base of the historic Barunei hillock, the campus site was the site of the 1817 Paikka Rebellion against the British. The majestic dome with mismatched halves atop the administrative building signifies the institute's policy of acceptance of differences among people. IIT Bhubaneswar has moved beyond knowledge generation, dissemination, and application to wealth generation by entrepreneurship and producing quality teachers. Its teachers are trained in active cooperative learning techniques, informed Prof. Karmalkar. Deans and Senior Faculty Members briefed the members about various academic and non-academic facilities of the Institute. The queries and concerns of the students and parents were addressed during these sessions.

The orientation included a talk by a motivational speaker Cdr. V.K. Jaitly (Retd.) on 'Shaping Your Future in the next 4 years at IIT Bhubaneswar' on 2nd August 2024. The speaker motivated the students to become a game changer by doing things differently with 'dedication, determination and discipline'. Dr. Vijayakrishna Kari, Professor-in-Charge (Seminar) coordinated the program.

The admission to different courses at IIT Bhubaneswar commenced on 9th July 2024, with the enrolment of the Ph.D. students. As many as 451 students have joined in B.Tech, 240 in MTech., 107 in MSc., 6 in MS by Research, and 115 in the Ph.D. course. Out of these, 3 foreign students have enrolled as part of the 'Study in India' program. The Institute has started a new stream, namely Engineering Physics, and introduced MTech. degree programs in Semiconductor Technology and Chip Design, Artificial Intelligence, Robotics and Artificial Intelligence, and Blended-mode MTech. degree in 'Advanced Maintenance Technology. Soon, 50 students are going to enroll in the 2nd batch of the 4-year Integrated Teacher Education Program (ITEP).

Bhubaneswar, July 22 : The Research & Entrepreneurship Park (REP) of Indian Institute of Technology (IIT) Bhubaneswar has joined Indian Space Research Organisation (ISRO) in commemorating the National Space Day. This day has been designated to celebrate the successful soft-landing of Chandrayaan-3 at Siva Shakti Point in the South Pole of the Moon on 23rd August 2023. To commemorate this success, ISRO envisaged capacity building for entrepreneurship and innovation in the space science technology throughout the country through a month-long celebration from 20th July to 23rd August 2024. As part of the celebration, a two-day event is being organized in the premises of IIT Bhubaneswar on 22nd and 23rd July 2024, in association with Satish Dhawan Space Centre, SHAR. The event was inaugurated by Prof. Hirendra Nath Ghosh, Director NISER, Bhubaneswar, in the presence of Prof. Shreepad Karmalkar, Director, IIT Bhubaneswar.

Speaking on the occasion, Prof. Ghosh said: “In addition to doctors, engineers and entrepreneurs, India needs scientists and researchers for overall development.” Appreciating the achievements of ISRO, he opined that especially, the Space Technology sector requires brilliant minds to serve the nation in a different manner.” He urged the students to be focused towards making a difference through their contributions in different fields.

Focusing on linking Entrepreneurship and growth of Space Technology, Prof. Karmalkar said: “In early 2000’s ISRO used to launch 1 satellite every two years. This increased to 2 satellites a year by late 2000’s. On the other hand, the IITs across the country have moved beyond knowledge generation, knowledge dissemination and knowledge application to include wealth generation through start-ups & entrepreneurship in their scope. IIT Bhubaneswar has also come forward towards achieving this goal through its 100-Cube Start-up Initiative, launched in February 2024. The target is now to motivate entrepreneurship among students at the school level and IIT Bhubaneswar is taking initiative towards this through its Research and Entrepreneurship Park. Space entrepreneurship will also be included in this effort.”

Shri J. Damodaram, Senior Scientist, ISRO also spoke on the objective of the event, that is, enhancing collaboration between entrepreneurship and innovation for furthering the progress in the space sector. Shri Amitav Mohanty, Scientist-SG, ISRO also spoke on the occasion and informed about the programme.

भारतीय प्रौद्योगिकी संस्थान भुवनेश्वर Indian Institute of Technology Bhubaneswar

Dr. Soobhankar Pati, CEO of the Research and Entrepreneurship Park at IIT Bhubaneswar, delivered the welcome address and emphasized the significance of fostering entrepreneurship. He stated that IIT Bhubaneswar's Research and Entrepreneurship Park has incubated startups whose technological innovations can be utilized by ISRO. He further highlighted that it is time for students to aspire to become job creators rather than job seekers and to consider entrepreneurship as a viable career path. Shri Kishor Kumar Panda, PRO, Satish Dhawan Space Centre, SHAR, ISRO proposed a vote of thanks.

The highlights of the two-day event are a mobile exhibition of ISRO's innovations and achievements, namely 'Space on the Wheels' and static floor exhibitions of scaled-down models and equipment being used in the space sector. The event also comprises space quiz for school students, popular talks by leading scientists of ISRO, Space Start-ups, academicians, followed by interaction among various stakeholders. The inaugural ceremony witnessed around 2500 audience, including students from nearby schools.

IIT BBS welcomes new batch of students

PNS ■ BHUBANESWAR

The Indian Institute of Technology (IIT) Bhubaneswar has welcomed the new batch of students with a great enthusiasm. Separate orientation programmes for the students and parents for individual courses and an inspiring talk were organised by the institute, followed by the admission process for the academic year 2024-25.

During the orientation programme, Director, Prof Shreepad Karmalkar introduced the new members of the campus to the unique features of IIT Bhubaneswar.

Deans and senior faculty members briefed the members about various academic and non-academic facilities of the institute. The queries and concerns of the students and par-

ents were addressed during these sessions.

The orientation included a talk by motivational speaker Cdr VK Jaitly on 'Shaping Your Future in the next 4 years at IITBhubaneswar.' Dr Vijayakrishna Kari, Professor-in-Charge (Seminar), coordinated the programme.

The admission to different courses at IIT Bhubaneswar

commenced from July 9, with the enrolment of the PhD students. As many as 451 students have joined in BTech, 240 in MTech, 107 in MSc, 6 in MS by Research and 115 in the PhD course. Out of these, 3 foreign students have enrolled as part of the 'Study in India' program. The institute has started a new stream, namely Engineering Physics,

and introduced MTech degree programs in Semiconductor Technology and Chip Design, Artificial Intelligence, Robotics and Artificial Intelligence, and Blended-mode MTech degree in 'Advanced Maintenance Technology.' Soon, 50 students are going to enrol in the 2nd batch of the 4-year Integrated Teacher Education Program (ITEP).

IIT Bhubaneswar welcomes new batch of students

STATESMAN NEWS SERVICE
BHUBANESWAR, 4 AUGUST:

Indian Institute of Technology (IIT) Bhubaneswar held separate orientation programs for the students and parents for individual courses.

Prof. Shreepad Karmalkar, Director, introduced the new members of the campus to the unique features of IIT Bhubaneswar. Spanning over 936 acres of land, the scenic campus with 50,000 deciduous trees is the 3rd largest among the 23 IITs. Nestled at the base of the historic Barunei hillock, the campus site was the site of the 1817 Paikba Rebellion against British. IIT Bhubaneswar has moved beyond knowledge generation, dissemination and application to wealth generation

by entrepreneurship and producing quality teachers. Its teachers are trained in active cooperative learning techniques, informed Prof. Karmalkar.

The orientation included a talk by a motivational speaker Cdr. V.K. Jaitly (Retd.) on 'Shaping Your Future in the next 4 years at IIT Bhubaneswar'. The speaker motivated the students to become a game changer by doing things differently with 'dedication, determination and discipline'.

As many as 451 students have joined in B.Tech, 240 in MTech., 107 in MSc., 6 in MS by Research and 115 in the Ph.D. course. Out of these, 3 foreign students have enrolled as part of the 'Study in India' program.

Bhubaneswar: Indian Institute of Technology (IIT) Bhubaneswar has welcomed the new batch of students with a great enthusiasm. Separate orientation programs for the students and parents for individual courses and an inspiring talk were organized by the Institute, followed by the admission process for the academic year 2024-25.

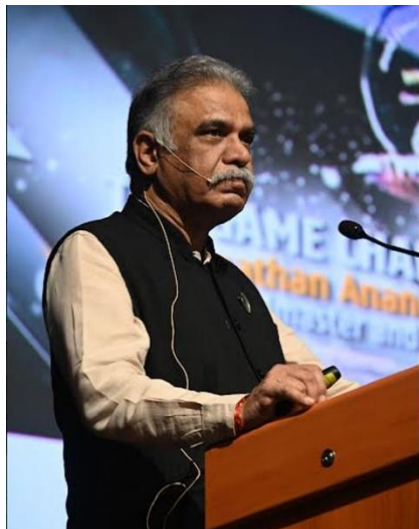

During the orientation programs, Prof. Shreepad Karmalkar, Director, introduced the new members of the campus to the unique features of IIT Bhubaneswar. Spanning over 936 acres of land, the scenic campus with 50,000 deciduous trees is the 3rd largest among the 23 IITs. Nestled at the base of the historic Barunei hillock, the campus site was the site of the 1817 Paikha Rebellion against British. The majestic dome with mismatched halves atop the administrative building signifies the institute's policy of acceptance of differences among people. IIT Bhubaneswar has moved beyond knowledge generation, dissemination and application to wealth generation by entrepreneurship and producing quality teachers. Its teachers are trained in active cooperative learning techniques, informed Prof. Karmalkar. Deans and Senior Faculty

भारतीय प्रौद्योगिकी संस्थान भुवनेश्वर Indian Institute of Technology Bhubaneswar

Members briefed the members about various academic and non-academic facilities of the Institute. The queries and concerns of the students and parents were addressed during these sessions.

The orientation included a talk by motivational speaker Cdr. V.K. Jaitly (Retd.) on 'Shaping Your Future in the next 4 years at IITBhubaneswar' on 2nd August 2024. The speaker motivated the students to become a game changer by doing things differently with 'dedication, determination and discipline'. Dr. Vijayakrishna Kari, Professor-in-Charge (Seminar) coordinated the program.

The admission to different courses at IIT Bhubaneswar commenced from 9th July 2024, with the enrolment of the Ph.D. students. As many as 451 students have joined in B.Tech, 240 in M.Tech., 107 in M.Sc., 6 in in MS by Research and 115 in the Ph.D. course. Out of these, 3 foreign students have enrolled as part of the 'Study in India' program. The Institute has started a new stream, namely Engineering Physics, and introduced M.Tech. degree programs in Semiconductor Technology and Chip Design, Artificial Intelligence, Robotics and Artificial Intelligence, and Blended-mode M.Tech. degree in 'Advanced Maintenance Technology'. Soon, 50 students are going to enroll in the 2nd batch of the 4-year Integrated Teacher Education Program (ITEP).
