# ABOUT US

Established in the year 2008, our IIT started functioning from two transit campuses in Bhubaneswar city. Since then, we have certainly come a long way. The present permanent campus is situated at the foot of the Barunei hillock and spreads over 936 acres of land. The hillock is not only a beautiful tourist spot, it is famous for its historical significance. The area is known for the resistance against the British occupation of Khurda Garh, the last independent fort of India, in the year 1803-1804. It is also the landmark of the first freedom struggle in India, the Paika Bidroha during 1810-1817

**CSR CELL**

But IIT Bhubaneswar's impact extends beyond the realm of academics. Recognizing its responsibility to the wider community, the institute established the CSR Cell, a dedicated unit that drives impactful initiatives focused on social good. This cell serves as a bridge between the institute's intellectual capital and the needs of society, channeling the expertise of faculty, staff, and students towards tackling critical challenges in areas like education, healthcare, and sustainable development. Through collaborative projects, outreach programs, and partnerships with corporates and NGOs, the CSR Cell empowers individuals and communities, ensuring that IIT Bhubaneswar's influence transcends the classroom walls and contributes meaningfully to building a better future.

The 2nd CSR Conclave on Technology, Innovation, and Circular Economy for Sustainable Development aims to bring together leaders from academia, industry, startups, and NGOs to address societal challenges and commit to the Sustainable Development Goals (SDGs). This platform will foster dialogue, collaboration, and innovation for a sustainable future.

Development aims to bring together an impressive array of leaders from academia, industry, startups, and NGOs to collectively address pressing societal challenges and reaffirm their commitment to the Sustainable Development Goals (SDGs).

This pivotal platform is designed to foster dynamic dialogue, facilitate meaningful collaboration, and inspire groundbreaking innovations that pave the way for a more sustainable future. By uniting diverse perspectives and expertise, the conclave seeks to create a synergistic environment where participants can share knowledge, exchange best practices, and develop actionable strategies that drive positive change. The event emphasizes the critical role of technology and innovative approaches in advancing circular economy principles, promoting resource efficiency, and achieving long-term sustainability

Through interactive sessions, keynote presentations, and networking opportunities, attendees will have the chance to engage in in-depth discussions on the latest trends, challenges, and opportunities in the realm of sustainable development. The conclave aims not only to highlight successful case studies and innovative solutions but also to inspire a collective vision for a more equitable, resilient, and sustainable world. Ultimately, this gathering aspires to catalyze transformative actions that contribute to the global pursuit of the SDGs, ensuring that technological advancements and innovative practices are harnessed effectively to create lasting, positive impacts on society and the environment

**CSR CONCLAVE**

# One-Day CSR Conclave -2025

Technology for  
Sustainable  
Development

Innovative  
Solutions for  
Circular Economy

Collaboration
