

Industrial Job Openings @ IIT BBS – SiCSem Project

Job Title: Process Engineer/Scientist

Start date: 15th November 2024

Type: Regular **Offered by:** M/s SiCSem Pvt. Limited

Expected Salary : 6.0 Lakh Per Annum (all inclusive)

Job Requirements

- Degree: Masters in Physics, or Bachelor of Engineering in Material Science / Materials Engineering or related fields.
- Candidate is expected to have done a project related to materials growth and characterization (experimental methods).
- The work involves ensuring that processing is done continuously and round-the-clock. Hence, working in night shifts would be necessary.

Main Responsibilities

- Technical support for setting up new equipment for SiC wafering and defect inspection.
- Performing defect engineering iterations using thermal conditions, surface treatment, defect etching and characterization.
- Technical support for clean room maintenance and operating wafer processing equipment (shift duty is expected).
