

# UBA Team partners with Young Tinker Educational Foundation for their “Tinker on Wheels” Program

Unnat Bharat Abhiyan (UBA) Team at the Indian Institute of Technology Bhubaneswar (IITBBS) partnered with the **Young Tinker Educational Foundation, Bhubaneswar** to promote STEM (Science, Technology, Engineering and Mathematics) education and promote creative thinking amongst young minds.

With a common focus to empower students to ideate, innovate and create solutions, a 5-day transformational STEM learning experience was organized from February 13-18, 2025. In the first phase, 39 students of Padanpur Upper Primary School from class VI-VIII attended the **ToW (Tinker on Wheels) Program**. The students learnt about ideation, hands-on activity to make models, basic coding and learning to be a problem-solver. The young minds presented their ideas during the Completion ceremony held on February 18, 2025, to the ToW mentors, their school teachers and classmates. The function was attended by the UBA Coordinator at IIT Bhubaneswar, Dr. Seema Bahinipati. All the participants received a workbook in Odia and a certificate of participation from the ToW team.
