IIT Bhubaneswar hosted the International Conference on Thought, Perception and Reality (ICTPR 2025), organised by the School of Humanities, Social Sciences, and Management in collaboration with the Bhaktivedanta Institute.

#### Distinguished Guests

The inaugural session featured Prof. Andrew Briggs, Emeritus Professor of Nanomaterials, University of Oxford, as Chief Guest. Prof. (Dr.) Ashok Kumar Mahapatra, Padma Shri Awardee and former Chair of AIIMS Delhi, joined as the Guest of Honour. Prof. Shreepad Karmalkar, Director of IIT Bhubaneswar, and Shri Vasudeva Rao, President of the Bhaktivedanta Institute, Kolkata, also addressed the gathering.

Prof. Karmalkar welcomed participants and highlighted the institution's strength in discipline, research rigour, and integrity. He emphasised that leadership must align institutional reality with shared perception through high standards and transparent feedback.

#### Intellectual Reflections

Prof. Briggs explored the relationship between perception and reality, drawing insights from quantum theory. He explained how subjective choices influence objective reality and connected scientific knowledge with spiritual wisdom. He also raised questions about values guiding artificial intelligence and the possibility of moral reality.

Prof. Mahapatra emphasised the importance of consciousness studies and ethical responsibility. He noted that medical professionals trained in public institutions must serve society with reflective thinking and commitment.

Shri Vasudeva Rao presented the vision of the Bhaktivedanta Institute. He stressed the intersection of science, philosophy, and spirituality, invoking Maurice Merleau-Ponty to show that science without philosophy lacks clarity. He called for an integrative approach to understanding consciousness.

#### Conference Highlights

Dr Sreetama Misra and Dr Aparna Pandey of IIT Bhubaneswar, along with Shri Jitun Dhal of the Bhaktivedanta Institute, convened the conference. The Book of Abstracts was released during the inaugural ceremony. ICTPR 2025 will continue for two days, fostering dialogue between philosophy, science, and consciousness studies. The event reaffirms IIT Bhubaneswar's commitment to interdisciplinary research and global intellectual exchange.

**Bhubaneswar, 27<sup>th</sup> December 2025:** The School of Humanities, Social Sciences, and Management (SHSSM), Indian Institute of Technology Bhubaneswar, in collaboration with the Centre for Foundation of Science and Consciousness, Bhaktivedanta Institute, Bhubaneswar, inaugurated the International Conference on Thought, Perception and Reality (ICTPR 2025) on 27<sup>th</sup> December 2025.

The inaugural session was graced by the Chief Guest, Prof. Andrew Briggs, Emeritus Professor of Nanomaterials, University of Oxford; the Guest of Honour, Prof. (Dr.) Ashok Kumar Mahapatra, Padma Shri Awardee (2025) and former Chair, AIIMS Delhi; Prof. Shreepad Karmalkar, Director, IIT Bhubaneswar and Shri Vasudeva Rao, President, Bhaktivedanta Institute, Kolkata.

Welcoming the participants, Prof. Shreepad Karmalkar highlighted IIT Bhubaneswar's unique campus ecosystem and noted that the true strength of an institution lies beyond infrastructure, in its "collective discipline, research rigour, and integrity of habits." Drawing from Indian and Western philosophical traditions, he emphasised that effective academic leadership depends on aligning institutional reality with

shared perception through rigorous standards and transparent feedback, transforming compliance into meaningful contribution.

The conference brought together eminent scholars, academicians, and thinkers to engage in cross-disciplinary reflections on the nature of thought, perception, and reality, spanning philosophy, psychology, science, consciousness studies, and the humanities. Chief Guest, Prof. Briggs, reflected on the relationship between perception and reality, drawing insights from quantum theory to highlight the observer effect and inherent indeterminacy. He emphasised how subjective choices can shape objective reality, drawing connections between scientific insight and spiritual wisdom in a seemingly random world. He further raised critical questions about the values that will guide artificial intelligence and the possibility of moral reality, reinforcing the central theme of thought, perception, and reality. Guest of Honour Prof. (Dr.) Mahapatra reflected on the contemporary relevance of consciousness studies and ethical inquiry. Drawing on the example of medical professionals trained in public institutions, he underscored the ethical responsibility of serving society and humanity, noting that while perceptions may vary, reflective thinking remains central to meaningful action and social commitment towards the motherland.

A brief address on the vision and activities of the Bhaktivedanta Institute was delivered by Shri Vasudev Rao. In his brief remark, he highlighted the contemporary relevance of the conference theme, which lies at the intersection of science, philosophy, and spirituality. Invoking Maurice Merleau-Ponty, he noted that without philosophy, science lacks clarity about its own discourse. Emphasising consciousness as a central mystery, he underscored the need for an open, integrative approach to understanding thought, perception, and reality.

The conference is being convened by Dr. Sreetama Misra (Philosophy) and Dr. Aparna Pandey (Psychology), Assistant Professors at IIT Bhubaneswar, along with Shri Jitun Dhal, Director, Bhaktivedanta Institute Bhubaneswar. The Book of Abstracts for ICTPR 2025 was formally released during the inaugural ceremony.

In the coming two days, the conference promises intellectual deliberations and interdisciplinary collaborations. ICTPR 2025 marks a significant academic event, fostering meaningful dialogue between philosophy, science, and consciousness studies. The conference reaffirms IIT Bhubaneswar's commitment to promoting interdisciplinary research and intellectual exchange at both national and international levels.

**Bhubaneswar :** The School of Humanities, Social Sciences, and Management (SHSSM), Indian Institute of Technology Bhubaneswar, in collaboration with the Centre for Foundation of Science and Consciousness, Bhaktivedanta Institute, Bhubaneswar, inaugurated the International Conference on Thought, Perception and Reality (ICTPR 2025) on 27<sup>th</sup> December 2025.

The inaugural session was graced by the Chief Guest, Prof. Andrew Briggs, Emeritus Professor of Nanomaterials, University of Oxford; the Guest of Honour, Prof. (Dr.) Ashok Kumar Mahapatra, Padma Shri Awardee (2025) and former Chair, AIIMS Delhi; Prof. Shreepad Karmalkar, Director, IIT Bhubaneswar and Shri Vasudeva Rao, President, Bhaktivedanta Institute, Kolkata.

Welcoming the participants, Prof. Shreepad Karmalkar highlighted IIT Bhubaneswar's unique campus ecosystem and noted that the true strength of an institution lies beyond infrastructure, in its "collective discipline, research rigour, and integrity of habits." Drawing from Indian and Western philosophical traditions, he emphasised that effective academic leadership depends on aligning institutional reality with shared perception through rigorous standards and transparent feedback, transforming compliance into meaningful contribution.

The conference brought together eminent scholars, academicians, and thinkers to engage in cross-disciplinary reflections on the nature of thought, perception, and reality, spanning philosophy, psychology, science, consciousness studies, and the humanities. Chief Guest, Prof. Briggs, reflected on

the relationship between perception and reality, drawing insights from quantum theory to highlight the observer effect and inherent indeterminacy. He emphasised how subjective choices can shape objective reality, drawing connections between scientific insight and spiritual wisdom in a seemingly random world. He further raised critical questions about the values that will guide artificial intelligence and the possibility of moral reality, reinforcing the central theme of thought, perception, and reality. Guest of Honour Prof. (Dr.) Mahapatra reflected on the contemporary relevance of consciousness studies and ethical inquiry. Drawing on the example of medical professionals trained in public institutions, he underscored the ethical responsibility of serving society and humanity, noting that while perceptions may vary, reflective thinking remains central to meaningful action and social commitment towards the motherland.

A brief address on the vision and activities of the Bhaktivedanta Institute was delivered by Shri Vasudev Rao. In his brief remark, he highlighted the contemporary relevance of the conference theme, which lies at the intersection of science, philosophy, and spirituality. Invoking Maurice Merleau-Ponty, he noted that without philosophy, science lacks clarity about its own discourse. Emphasising consciousness as a central mystery, he underscored the need for an open, integrative approach to understanding thought, perception, and reality.

The conference is being convened by Dr. Sreetama Misra (Philosophy) and Dr. Aparna Pandey (Psychology), Assistant Professors at IIT Bhubaneswar, along with Shri Jitun Dhal, Director, Bhaktivedanta Institute Bhubaneswar. The Book of Abstracts for ICTPR 2025 was formally released during the inaugural ceremony.

In the coming two days, the conference promises intellectual deliberations and interdisciplinary collaborations. ICTPR 2025 marks a significant academic event, fostering meaningful dialogue between philosophy, science, and consciousness studies. The conference reaffirms IIT Bhubaneswar's commitment to promoting interdisciplinary research and intellectual exchange at both national and international levels.

## IIT hosts Conf on Thought, Perception and Reality

Scholars examine intersections of science, philosophy, consciousness

RAJEEV RATHAN ■ Bhubaneswar

The IIT Bhubaneswar hosted an 'International Conference on Thought, Perception and Reality (ICTPR 2025)' on Saturday organised by its School of Humanities, Social Sciences and Management in collaboration with the Bhaktivedanta Institute. The two-day conference brought together scholars and thinkers to explore the relationship between science, philosophy, perception and consciousness.

The inaugural session featured Emeritus Prof of Nanomaterials at the University of Oxford. Prof Andrew Briggs was the chief guest while Padma Shri awardee and former AIIMS Delhi Chair Prof Dr Ashok Kumar Mahapatra attended as the guest of honour. IIT Bhubaneswar Director Prof Shripad Karmalkar and the

Kolkata Bhaktivedanta Institute President Vasudeva Rao also addressed the gathering.

Prof Karmalkar highlighted the IIT Bhubaneswar's emphasis on academic discipline, research rigour and institutional integrity. He said leadership plays a crucial role in aligning institutional reality with shared perception by upholding high standards, transparency and continuous feedback.

In his keynote address, Prof Briggs examined the complex relationship between perception and reality through in-

sights drawn from quantum theory. He spoke on how subjective choices can influence objective outcomes and linked scientific inquiry with spiritual wisdom. He also raised important questions about the ethical values guiding artificial intelligence and the existence of moral reality in an increasingly technology-driven world.

Prof Mahapatra stressed the importance of consciousness studies and ethical responsibility, particularly in the medical profession. He noted that profes-

sionals trained in public institutions have a moral obligation to serve society with reflective thinking, accountability and compassion.

Presenting the vision of the Bhaktivedanta Institute, Vasudeva Rao emphasised the convergence of science, philosophy and spirituality. Quoting philosopher Maurice Merleau-Ponty, he observed that science without philosophical grounding lacks clarity and called for an integrative approach to understanding consciousness.

## Conference on thought, perception and reality at IIT Bhubaneswar

**STATESMAN NEWS SERVICE**  
Bhubaneswar, 27 December:

The School of Humanities, Social Sciences, and Management (SHSSM), IIT Bhubaneswar in collaboration with the Centre for Foundation of Science and Consciousness, Bhaktivedanta Institute, Bhubaneswar, inaugurated the International Conference on Thought, Perception and Reality (ICTPR 2025) on Saturday.

The inaugural session was graced by the Chief Guest, Prof. Andrew Briggs, Emeritus Professor of Nanomaterials, University of Oxford; the Guest of Honour, Prof. (Dr.) Ashok Kumar Mahapatra, Padma Shri Awardee (2025) and former Chair, AIIMS Delhi; Prof. Shreepad Karmalkar, Director, IIT Bhubaneswar and Vasudeva Rao, President, Bhaktivedanta Institute, Kolkata.

Prof. Shreepad Karmalkar highlighted IIT Bhubaneswar's

unique campus ecosystem and noted that the true strength of an institution lies beyond infrastructure, in its "collective discipline, research rigour, and integrity of habits."

The conference brought together eminent scholars, academicians, and thinkers to engage in cross-disciplinary reflections on the nature of thought, perception, and reality, spanning philosophy, psychology, science, consciousness studies, and the humanities. Prof. Briggs, reflected on the relationship between perception and reality, drawing insights from quantum theory to highlight the observer effect and inherent indeterminacy.

He emphasised how subjective choices can shape objective reality, drawing connections between scientific insight and spiritual wisdom in a seemingly random world. He further raised critical questions about the values that will guide artificial

intelligence and the possibility of moral reality, reinforcing the central theme of thought, perception, and reality.

Prof. (Dr.) Mahapatra reflected on the contemporary relevance of consciousness studies and ethical inquiry. He underscored the ethical responsibility of serving society and humanity, noting that while perceptions may vary, reflective thinking remains central to meaningful action and social commitment towards the motherland.

A brief address on the vision and activities of the Bhaktivedanta Institute was delivered by Vasudeva Rao. Invoking Maurice Merleau-Ponty, he noted that without philosophy, science lacks clarity about its own discourse. Emphasising consciousness as a central mystery, he underscored the need for an open, integrative approach to understanding thought, perception, and reality.

## IIT Bhubaneswar hosts 'International Conference on Thought, Perception, and Reality'

PBD BUREAU

BHUBANESWAR, DEC 27

THE Indian Institute of Technology Bhubaneswar (IITB) opened the doors to profound discussions on the nature of thought, perception, and reality with the inauguration of the International Conference on Thought, Perception and Reality (ICTPR 2025). Organized by the

School of Humanities, Social Sciences, and Management (SHSSM) in partnership with the Bhaktivedanta Institute's Centre for the Foundation of Science and Consciousness, the event brought together leading scholars and thinkers from across the globe.

The conference was inaugurated on Saturday with esteemed guests including Prof. Andrew Briggs, Emeritus Professor of Nanomaterials at

the University of Oxford, and Prof. (Dr.) Ashok Kumar Mahapatra, former Chair of AIIMS Delhi. The event also saw the participation of Prof. Shreepad Karmalkar, Director of IIT Bhubaneswar, and Vasudeva Rao, President of the Bhaktivedanta Institute.

In his welcome address, Prof. Karmalkar underscored the importance of academic leadership that harmonizes institutional goals with shared

perceptions, emphasizing that a culture of discipline and rigorous research is key to meaningful academic contributions.

Chief Guest Prof. Briggs captivated the audience with insights from quantum theory, exploring how the observer

effect shapes our understanding of reality. He highlighted the interplay between subjective perception and objective reality, drawing connections to spiritual wisdom.

Prof. (Dr.) Mahapatra focused on the ethical dimensions of consciousness studies, stressing the responsibility of professionals to reflect deeply on their societal roles.

Vasudeva Rao, in his remarks, pointed to the inter-

section of science, philosophy, and spirituality, calling for an integrative approach to these profound questions.

The two-day conference is set to foster interdisciplinary dialogue, bridging philosophy, psychology, science, and spirituality. It promises to be a landmark event for intellectual exchange and research collaboration, reinforcing IIT Bhubaneswar's commitment to global academic engagement.
